CoorsTEK

CoorsTEK has an advanced ceramics manufacturing plant located in Worcester, MA and we are currently advertising a Metrologist II position for and immediate fill.

Looking over the plant's requirements you will see the ASQ Certified Mechanical Inspector or equivalent as a requirement. So I figured the first place to look would be the local ASQ chapter. Do you have a jobs board or a network tool to identify potential job seekers for such a role? The Corporate Recruiter for this position is Mary Rafert, [mrafert@coorstec.com](mailto:mrafert@coorstec.com)

I've attached the job description to this email. However, the job is also posted on CoorsTEK's careers page <https://www.coorstek.com/english/careers/>

I like to engage the local professional organizations when my recruiters approach me to discuss positions they are filling in our plants.

V/r  
Dave
